

axel foamer

2000, 3000, 7000

For many people, foam is just bubbles of air, whereas in our opinion foam is your new tool. Thanks to our new Axel foamers, you will look at the foam like we do. You will get from us the foam in 3 different densities which you can use in an infinite number of applications. We give you the tool to create a clean and shiny world.

3 FOAM DENSITIES

3 foaming pads create the foam of different densities. You simply insert the right pad to create the foam which is needed - from liquid foam, perfect for penetrating the uneven surfaces to dense foam, firm enough to stay on almost vertical surfaces.

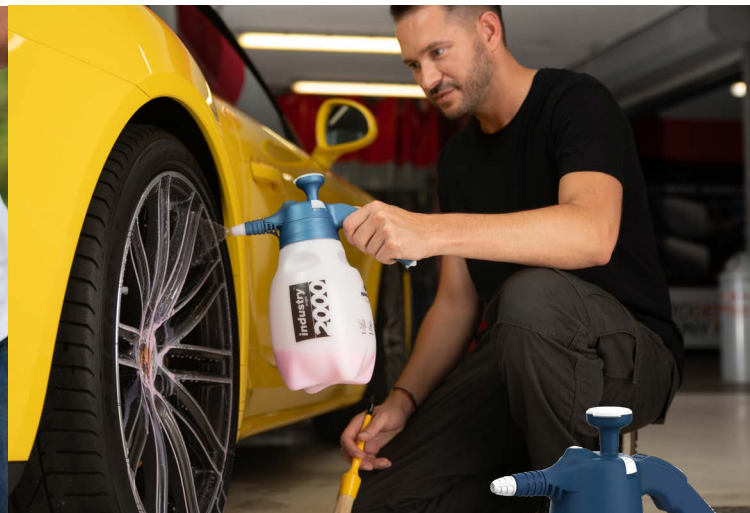

SMART BOTTLE

The ergonomic profiling in the sprayer's tank allows for a comfortable and secure grip. It significantly improves the comfort of work, minimizing the force needed to unscrew and tighten the sprayer's head

industry ergo alka

1000, 1500, 2000, 3000

With the introduction of the Ergo series, the industry has gained an amazing tool. The sprayer resistant to a wide range of chemicals which is also light and handy - you do not need anything more.

3D FLEX

3D Flex is a construction that gives more flexibility of use. Sprayers with 3D Flex can work in any position, even with the tank upside down. Thanks to this solution you will reach even the most inaccessible areas with great ease.

AUTO LOCK

The autolock button on the Marolex handle makes work more comfortable. It reduces the strain on the hand muscles during long work with the sprayer. The trigger button pressed and moved forward gets blocked in the open position without having to press it during spraying.

industry alka

5, 7, 9, 12

Heavy industry and aggressive chemistry require durability at the highest level. Regardless of pH, our Industry sprayers are unbeatable. Resistance and safety are our priority when working with hazardous chemicals

LONG WARRANTY

Our high-pressure tank ensures the highest safety of use. A special method of its production and a several-stage quality control process guarantee a long working life and safety

LANCE SEALING

All telescopic lances are equipped with dust protection system APS, preventing the entry of dirtiness between the lances. Thanks to this solution, they are considered to be one of the most reliable devices of this type on the market.

fx alka

7

From the very beginning, we wanted to create a sprayer that will be light and battery-powered. With the FX you will discover a whole new dimension of work. It weighs only 4.2 kg and its battery lasts for over 3 hours of continuous work. Most of all, you can very easily exchange the batteries and keep on working.

LI-ION POWERED

Our sprayers are evolving together with the latest technology, which is why we use the most modern power sources in them. Lithium-ion batteries were created to minimize weight and use the available energy most efficiently.

FAST CHARGING

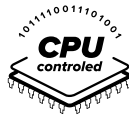

Our modern batteries are ready to use whenever you need them. The quick charger limits the charging time to the necessary minimum. We value your time so much that the fast charging is our standard.

rx alka

12

Turn it on, put it on your back and forget about restrictions. With the RX battery sprayer, you get everywhere, and the built-in battery will allow you to have an amazingly long work without charging.

ELECTRONIC SECURITY

The microprocessor in our sprayers is responsible for control, safety and optimization. Thanks to advanced algorithms, sprayers use batteries more efficiently, save energy so that you can work longer.

CONSTANT PRESSURE

Changes are important, but sometimes stabilization is needed so we have equipped the RX sprayer with the expansion tank to ensure the pressure is stable and never fall.

vx alka

20

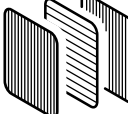

Our biggest sprayer is simply impressive. Over average capacity, exceptional mobility, powering supply to our biggest battery, and above all, an efficient pump. The VX sprayer is pure power and no compromises.

FAST CHARGING

Our modern batteries are ready to use whenever you need them. The quick charger limits the charging time to the necessary minimum. We value your time therefore instant charging is our standard.

TRIPLE FILTRATION

Filtration is crucial for intensive spraying. The electric series sprayers have a 3-stage filtration that protects nozzles and ensures perfect spraying.

Accessories and parts

Lance, handles
and extensions

Service parts
and spare parts

Pumps, hoses and many more

mini acid 500, 1000

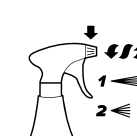

A small sprayer for great chemistry. Mini viton is an ultra-light sprayer equipped with special seals resistant to strong chemicals. Especially appreciated by professionals for whom trouble-free operation is a real profit.

LIGHTWEIGHT

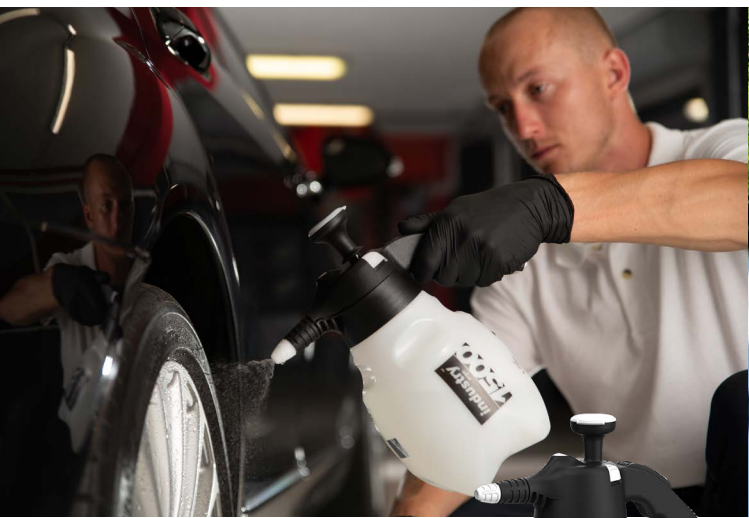

Our sprayers are light and handy. Minimizing the weight of our products we make the work more comfortable and using the best materials our sprayers retain greater durability with minimum weight.

ADJUSTABLE NOZZLE

Nozzles in our sprayers have a smooth regulation of the spraying angle from a wide spray to a single stream. All you need is one nozzle that can be used for both watering and misting.

industry ergo acid 1000, 1500, 2000, 3000

vacuum pump 5, 12

Everyone will sometimes spill something, many need to suck out something and Vacuum pump is always ready for action. It does not need power, it even manages to extract ultra-thick oils from engines and everything is safe and easy.

PLUGLESS

Energy efficiency is now a very important aspect but the vacuum pump does not require any power at all. Thanks to that you can always have it ready for work.

STRONG VACUUM

Thanks to its high power, the vacuum pump acts as a vacuum cleaner for difficult and dense substances. It takes just a few pump movements to create a strong underpressure.
